

YEAR 6 SPRING 2 NEWSLETTER 2019

Reading at home

Read 5 times a week.

Weekly spellings

Test every Friday

Weekly SPaG

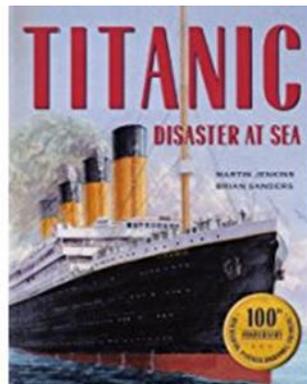

Set every other Monday to be completed by Friday

Homework

REMINDER: Weekly homework will be given on a Friday for the following Friday.

Miss Anderton, Mrs Harrison and Miss Newbury

We would like to take this opportunity to thank you for all your support. Below are all the exciting topics and important points for next term in year 6.

Topic: Titanic

At 2:20 a.m. on April 15, 1912, the "unsinkable" R.M.S.: Titanic disappeared beneath the waves, taking with her 1,500 souls. How did it sink? Why were so many lives lost? These will be some of the questions answered in our next topic in Year 6. Our topic will be taught through English with particular links to persuasive writing.

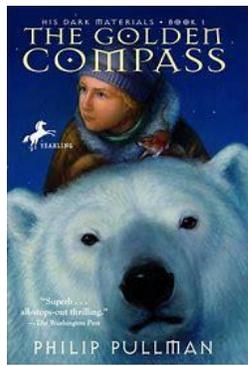

SATs

Year 6 SATs will take place on the week commencing 13th May 2019. Children are preparing for these tests in school. You can help your child prepare at home by continuing to work with them on their times tables, spellings, grammar and reading. www.satpapers.org has a range of old SAT papers and answers as well as the test materials from previous years.

Boosters

Booster classes have already started and are working really well. Children will be invited to a booster either before or after school. They are extremely important for preparing your child for SATs. Please see separate letter for details.

MATHS
NO PROBLEM!

"If you believe, you will receive whatever you ask for in prayer."

Matthew 21:22

Reading at Home

In year 6, it is important that you read with your child at home AT LEAST five nights a week and sign their reading record. We allow year 6 children to sign their reading record themselves twice a week. Children must have it signed to gain their sticker. Mrs Harrison will be making a note of children that have read so they can earn their sticker on the reading chart.

In previous years, Y6 have had the highest percentage of readers each week in assembly. Come on, we can keep it going!

Physical Education

Monday and Thursday. Full kit will be needed to take part!

Religious Education

What difference does the resurrection make to Christians?

We will be exploring the very prevalent Easter story then deepening our understanding of how significant events impact us as Christians.

Science

Electricity

Circuits, bulbs, buzzers and motors. Could you build a circuit using energy from a vegetable? We will explore the ever-changing world of energy and electricity.

Spellings

Weekly spellings will be given out on a Friday, children will be tested on the following Friday.

Homework

REMINDER: Weekly homework will be given on a Friday for the following Friday.

We are always around at the end of the day, so please feel free to see us if you have any questions!
